

DOMINO

SUITABLE FOR YOUNGER PUPILS

- 1.** The set contains a pack of printable „playing stones“ designed as a domino game.
- 2.** Each stone has 2 sides with different characters and cybersecurity-related words.
- 3.** One pack of cards contains words which are suitable for all ages, while the other pack includes words that are more suitable for older pupils in the 2nd stage of elementary school. Be careful to only choose suitable and age appropriate words for your child. You can mix and match the cards from both packs as well.
- 4.** Give away a number of stones – you can choose the number to set the difficulty.
- 5.** If your child wants to play by him/herself, they have to use all the stones in least amount of turns to win the game. If you want to play with your child, shuffle the deck, each one picks blindly a number of stones and try to get rid of all your stones first.
